**Electro eco** is the new age electric vehicle in the category of two wheelers developed and produced in India by electro eco mobility pvt ltd. We are a last evolving and expanding start up based in Gujarat formed by veterans from the energy industry like Enercon (India - Germany industries. Our assembly line to produce the electric two wheelers is situated in vapi. Gujarat and it is capable of rolling our 100+ vehicles per day presently we have electric scooters in our steadily expanding portfolio to cover a divine range of users from collage/ tuition going children's the gentlemen and ladies running home brands to men and women commuting e bike. We aim to provide technology to every range of vehicle user and to fit with every budget under the umbrella of electro eco mobility pvt. Ltd electro eco is having its own chief engineering and design house of the electric bikes which holds an I cat (international centre for automotive technology) certification and homologation under its name further electro eco mobility pvt ltd. Will also produce other battery operated products ig drone (for home deliveries defence agriculture etc) buses and budget friendly four wheelers according to the requirements of the various sectors. As we support green energy and we are going to build india's first green factory which will be completely a new and unique example of green Indian keeping in mind to change each product battery operated by battery operated products. Also we had a dream to give a car to every house of India in a economic range we. Are iChat/cert / vahan certified government of India approved company

## Referral Loyal Program

The image shows the front cover of a report titled "ELECTROECO - MOBILITY". At the top, the "Industry Outlook" logo is visible, featuring a gold medal with "2022 AWARD" inscribed on it. Below the logo, the text "AS PROMOTED BY PRESIDENT" is partially visible. The main title "ELECTROECO - MOBILITY" is prominently displayed in a large, bold, black sans-serif font. Underneath this, it says "AS ONE OF THE" in a smaller font, followed by "TOP 10" in a large, bold, black font. The words "ELECTRIC VEHICLE" and "STARTUPS" are written in a large, bold, red font, with "2022" in a smaller, bold, black font below them. At the bottom, there is a quote in a stylized, italicized font: "Industry Outlook of the top 10 electric vehicle startups in the field". A small, dark rectangular box with white text is located at the bottom center, which appears to be a publisher or distributor logo.

## Why Electric scooters ?

With the rising cost of petrol and the increase in price that all BSVI compliant petrol scooters have seen, the wide price gap between e-scooters and petrol scooters appears to be closing. With low-costs, minimum maintenance and zero tailpipe emissions (in fact, there's no tailpipe), electric scooters are the most cost-effective measure to immunise yourself from outrageous fuel costs, let's look at some statistic between Electric Scooter & Petrol Scooter.
